

Southern Union State Community College, Health Sciences

Information Sessions

The Health Sciences Division of Southern Union State Community College strives to keep students informed of college policies, program requirements, course changes, opportunities for growth and learning, and much more. Throughout each semester, information sessions will be held to provide current and prospective students with information about Southern Union, about the Health Science programs, and about any changes that have taken place. These information sessions are open to any and all who wish to attend. See dates, times, and locations below to learn more about the programs:
